Quotation

Dear Mr. Thedjasurya,

Kömmerring (Tianjin) Kunststoff Co., Ltd. (KTK) is a branch company of the worldwide Profine Group. KTK was established in Tianjin (100 km east of Beijing) in 1995 and moved in fully new facilities in 2003.

As a company of the profine Group, it is for us a matter of course to produce systems which are fully in accordance with the group standard quality. To be able to produce and maintain this high quality level, our production plant, extrusion lines and our mixing plant have been equipped with modern machinery of well-known European suppliers. To ensure a continuously high quality, we have chosen famous and well experienced, mostly European, raw material suppliers, approved by our Headquarters' quality department.

The standard of our systems is the same as for the systems produced in Germany or other European production facilities, and has been developed according to the worldwide Kömmerring standards. They are confirmed by ISO 9001 and GB/T 8814-2004 certification. This means that the quality as well as the efficiency of our systems have been applied for many years now and are entirely in accordance with the expectations of the Kömmerring customers.

Today, as a consequence of this quality policy, Kömmerring products from Tianjin are recognized as high quality uPVC systems for high class projects all over China and other foreign countries.

Due to the high efficiency of our production and the advantages of our location, we are able to make the following offer in accordance with the Headquarters strategy.

Troisdorf, 29.07.2010

KÖMMERLING®

欧洲 PVC-U 门窗型材首席品牌

Profile systems:

Currently we produce profiles for the following systems:

- Energy system, 3 chambers, 58 mm, mostly used for tilt and turn windows and doors (for doors also outward opening)
- Gold Asia system, 58 mm, with a particular slim design, mostly used for outward opening (inward also possible)
- Orta horizontal sliding window system 80 and 88 mm (with integrated sliding system for fly screen.)
- SF2 horizontal sliding door system, 78 mm
- Lift and sliding door system for particular big size sliding doors.
- GlassWin System

Additionally, we can provide reinforcement, fittings and gaskets from Chinese companies or fittings from German suppliers based in China.

All above mentioned systems are available with color foil inside and outside. Please consider that the sliding system will only be foiled outside.

Please note that the delivery time should be confirmed for each order since we don't keep color profiles on stock.

• **Brand name:**

All profiles will be taped with a KTK protection foil. KTK has to be considered as the brand name for profiles delivered from KÖMMERLING (Tianjin) Kunststoff Co., Ltd..

• **KÖMMERLING (Tianjin) Kunststoff Co., Ltd. price/rebate:**

Based on our January 2009 price list, we will grant you a 30% discount on profiles only.

• **Object rebate:**

Depending on the sales volume, an object rebate can be granted for special projects upon mutual agreement between you and profine.
